LETTER OF RECOMMENDATION

I, Diana Kaplun, Administrative Assistant at Almaty International School, hereby confirm the successful, long-standing collaboration between our organization and the chocolate workshop of Liliya Shakhatova—a renowned and distinguished chocolatier in the Republic of Kazakhstan.

The products from her Almaty-based workshop, sold under the "LinuA Chocolate" brand, are high-quality, premium, handmade chocolates.

A key feature of the production process is the use of "bean-to-bar" technology—a rarity in Kazakhstan—which entails a complete, closed-loop cycle ranging from the meticulous selection of cocoa beans to the creation of the finished chocolate bar.

Liliya Shakhatova's products are distinguished by exceptional quality and unique flavor profiles, crafted exclusively from natural ingredients using her own original recipes.

For four years, Almaty International School has maintained a close and fruitful partnership with Liliya Shakhatova's chocolate workshop.

During this time, the "LinuA Chocolate" brand has become a regular and integral participant in our annual winter festivals.

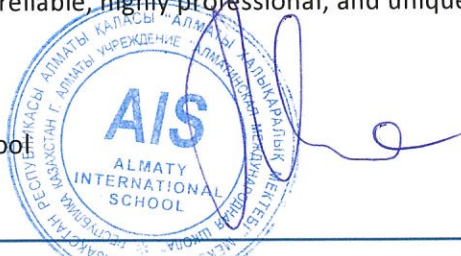

Liliya Shakhatova's workshop is rightfully considered a unique venture within the Kazakhstani confectionery industry. Her distinctive technological approach, uncompromising commitment to quality, and product authenticity have earned her great acclaim and trust among both our festival guests and a wide customer base.

My colleagues and I are also regular customers of the workshop and sincerely appreciate "LinuA" products. Almaty International School extends its deep gratitude to Liliya Shakhatova for her active participation in our events and festivals.

We highly value her professionalism, dedication to her craft, exceptional skill, and significant personal contribution to the development and popularization of the craft chocolate industry in Kazakhstan.

Based on our years of collaboration, I confidently recommend Liliya Shakhatova and her chocolate workshop as a reliable, highly professional, and unique partner.
